Human Risk Management Platform

Human error is the leading cause of security breaches.

TSC's innovative new Human Risk Management Platform offers a comprehensive solution to safeguard your organisation through advanced phishing simulations, rapid incident response, and real-time threat intelligence. This powerful solution will fortify your awareness and cyber security posture to an unprecedented level.

TSC's comprehensive human risk management solution

Phishing simulations:

Multi-channel simulations (email, SMS, voice, QR) to test and train your employees in real time.

Incident response:

Rapid response tools to tackle threats swiftly and minimise damage.

Threat intelligence:

Stay ahead with real-time threat intelligence and advanced email threat detection.

Behavioural change:

Customised modules to meet your specific organisational needs.

Tailored training:

Over 25 years of experience in driving behavioural change through targeted training programmes.

Why choose TSC's platform?

Integrated and user-friendly:

A seamless, all-in-one platform that consolidates your security tools.

Measurable impact:

Demonstrable reduction in human error-related incidents.

Proven expertise:

Leverage our extensive experience in human risk management.

Compliance assurance:

Ensure adherence to industry regulations and standards.

FAQs

1

What is TSC's human risk management platform?

TSC's Human Risk Management Platform is an all-in-one solution. Designed to enhance organisational security through multi-channel phishing simulations, rapid incident response, real-time threat intelligence, training and awareness, and advanced email threat detection.

2

What makes TSC's platform different from others?

Our platform leverages over 25 years of experience in human risk management and behavioural change. It offers a comprehensive feature set, seamless integration, and a user-friendly interface, ensuring effective and engaging training programmes.

3

How does the platform help with regulatory compliance?

TSC's platform includes specialised training modules for all employees like GDPR, along with detailed reporting and audit trails to support compliance audits and regulatory requirements.

4

Can the platform be customised for our organisation?

Yes, we believe customisation is essential for relatability. Our platform offers tailored training modules and awareness programmes to address your specific organisational needs and threat landscape. Our platform's phishing tests and learning paths can also be customised.

5

What types of phishing simulations does the platform offer?

Our platform provides multi-channel phishing simulations, including email, SMS, voice, QR code, and more, to thoroughly test and train your employees.

6

How does the incident response feature work?

Our incident response tools enable rapid detection and mitigation of threats. Enable your SOC team to analyse reported phishing incidents 186 times faster and respond 48 times quicker.

7

What support does TSC provide?

TSC can offer a comprehensive, fully managed service for the platform, designed to seamlessly integrate into your organisation's existing framework. From initial setup and configuration to ongoing monitoring and maintenance we provide continuous support and updates to keep the platform current with the latest threat intelligence and risk management strategies.

8

How can I learn more or get started with the platform?

Contact us today to learn more, schedule a demo, or get started with TSC's Human Risk Management Platform.
